PROJECTS

Namrata Attendance System (09/2024)

- This Attendance System is a web application built with React.js and Firebase. It allows users to mark their attendance for a specific day, view their attendance history, and interact with a calendar interface to manage their attendance records. The system also includes user authentication and the ability to log out.

Caratglitz E-commerce Website (07/2024)

- CaratGlitz is a sophisticated e-commerce platform designed for jewelry enthusiasts, showcasing a wide range of exquisite jewelry collections. Built using React.js, this project aims to provide a seamless shopping experience with a modern user interface.
